Short Profile of the xSuite Group GmbH
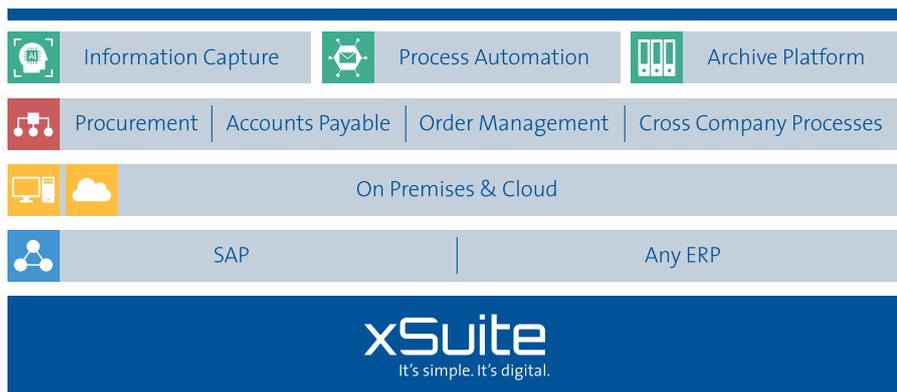

We develop software and manage documents

Who we are and what we do

Founded in 1994 under the name of WMD, xSuite is a software manufacturer of applications for document-based processes. We provide enterprises across the globe with standardized, digital solutions, making work simple, secure and fast.

We focus on digital document management and the automation of important work processes — in combination with intelligent e-files. Around 1,200 customers in more than 60 countries have come to rely on xSuite solutions.

Our core competence is in AP automation for SAP systems in mid-sized to large corporations, as well as for public clients. We also offer solutions for automating procurement and order processing and for optimize file management and archiving.

The applications are available on-premises, cloud-based or hybrid. Standard processes from the cloud — incoming mail, data extraction, and archiving — supplement locally installed applications. Our Managed Services team supports customers using SAP-integrated xSuite solutions. xSuite Group is an SAP Silver Partner.

xSuite
It's simple. It's digital.

It's simple. It's digital.

Overview: Processes and platforms

SAP expertise

As SAP Silver Partner and the developer of xSuite® for SAP, we offer innovation and deep technical expertise in solutions for SAP processes. Our software supports high-performance execution on S/4 HANA systems, allowing intuitive work in all P2P processes. Users in financial accounting and purchasing receive access to Fiori apps, which offer many functions helpful in daily work.

Our team

Headquartered in Ahrensburg, Germany, xSuite employs around 200 employees at eight locations in Europe, Asia and the USA – an international, highly motivated, well-trained team is at your side when it comes to digital business processes. Our solid, steady growth is an outcome of our passion for processes and technology. Experienced teams of consultants are responsible for project implementation.
