

It's simple.
It's digital.

»» WMD - Workflow Management & Document Consulting

**WE DEVELOP SOFTWARE AND MANAGE DOCUMENTS.
WE CONSULT AND IMPLEMENT PROJECTS.
WE OFFER IT ALL FROM A SINGLE SOURCE.**

Our Aim

We have taken on the task of developing standardized, digital solutions that make business processes clear, straightforward, and user-friendly. The value of our product portfolio is backed by well-known international reference customers.

Our Team

With 180 highly motivated, qualified employees internationally, our team is at your service in all matters of document management. Our steady, solid growth is an indication of our passion for processes and workflows. Our experienced project team is responsible for project implementation.

Our Portfolio

xSuite® provides you with workflow and process solutions. A company can purchase the modules it needs and combine them to form end-to-end processes such as procure-to-pay and order-to-cash. Linking P2P processes with vendor, customer and procurement folders is a given. It is our aim to help companies by providing complete availability of information as it is relevant to a procedure. For instance, content repositories.

We are also at your side when you seek consultation in procedural documentation and compliance with your country's accounting and data-archiving regulations.

- Over 29 million Euro turnover in 2017

xSuite® – A Modern Information Management Platform for all Business Processes

Our state-of-the-art technology links and enables communication across a diversity of platforms and IT systems. We support your global xSuite deployment with multi-lingual consulting and a tried-and-true installation concept. xSuite offers enterprises numerous high-performance workflow and process solutions, mapping the entire life cycle of a document from scan to archive.

Our SAP Competence

As SAP Silver Partner and the developer of xSuite® for SAP, we offer innovation and deep technical expertise in SAP-ERP process solutions. Our software supports high-performance execution on S/4 HANA systems, allowing intuitive work in all P2P processes. Users in financial accounting and purchasing receive access to Fiori apps, which offer many functions helpful in daily work.

ECM Products for All

xSuite® is a solution that can also be used with other ERP systems. Standardized processes and interfaces to existing ERP systems facilitate end-to-end business processes in all scenarios. xSuite can be deployed in a diversity of business settings, in combination with a broad range of technologies. For instance, ECM from the Cloud: Companies can use the functions according to need and are only billed for volume of use. The archive and functionalities such as capture, data extraction and workflow (for invoice processing and other processes) are practical cloud-based options.

Our Partner Network

Our global activities are supported by the pro-active development of our network. Close long-term partnerships connect us to successful developers, vendors of technologies and services, reputable system integrators, and sales and technology partners. The consistency of our across-the-board provision of your solutions is ensured by the successful collaboration with these partners.
